The Objects of the Association

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collecting or canvassing for any fraudulent or "fake" Directory.

Introductory

THIS Sixteenth issue of the Regina City Directory, comprising the City proper, is presented to the public with the belief that it will meet the demands of the most exacting and will fulfill the requirements of all its users.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracies brought to their attention, so that they may be corrected in succeeding editions.

The canvass for the present book was made under favorable conditions, with a crew of efficient canvassers, under the immediate supervision of carefully trained examiners.

The results of the canvass were most satisfactory and the manner in which the information checked in, proved the thoroughness of the work.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and complete store of information regarding all the interests of the city. It is devoted to the advancement of all the city's vital interests and has in each issue kept pace with its progress.

The library of city directories which is maintained by the publishers at The Board of Trade offices, City Hall, and Regina Public Library, 1920 Lorne Street, for the use of its patrons, has proven a most valuable asset to the City of Regina.

Through the exchange of directories with the various directory libraries throughout the United States and Canada and the sale of the Regina Directory to many institutions, hotels and stores in large cities, the directory is circulated throughout the country and serves as a lasting advertisement for our city.

The canvass for the Regina Directory includes the entire City, so that the name of each person employed should be taken twice; once at the dwelling and again at the place of business. After the canvass has been completed, this information is compiled and it is necessary that there be two slips for each person employed. The information taken at the residence and place of business is compared before the duplicate is laid aside. When a discrepancy is found, a special messenger is dispatched to correct the conflicting information, or if the name has not been taken at both places, to retake it at the home or business place.

The new information is checked with the previous directory and each name in the old directory is accounted for.

It is this careful superintendence and revision which makes the directory estimate of population higher than the census figures.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Regina is 44,129. This includes considerable territory beyond the city limits, which is canvassed in order that the names of all people doing business in Regina may be obtained for the directory.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to express their appreciation for the confidence which the business and professional men of Regina have always shown in their publications.

Respectfully, The Publishers,

HENDERSON DIRECTORIES, LIMITED.

November, 1923.

City of Regina

Regina is situated in lat. 50.30, long. 105, 357 miles west of Winnipeg and 1,125 miles east of Vancouver, and is served by the two transcontinental lines, viz., the Canadian Pacific and the Canadian National Railways.

The selection of the townsite of Regina was arranged jointly by the Government and the C. P. R. Company. Early in 1883 an officer of the North West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the railway company to enter into partnership regarding certain townsites, one of which was to be the seat of government for the Northwest Territories. Acting under this agreement, the general manager of the railway company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz., 19 to 30, township 17, range 19, and 24 and 25, township 24, range 20, west of the second meridian, to constitute the townsite of Regina.

Nominations for the first municipal elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs. Mr. D. L. Scott, now judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a city on June 9, 1903 and is now the capital and seat of government of the Province of Saskatchewan.

The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the city limits.

It has been well said that there are no parliament buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan capital.

The building is constructed of Tyndall stone, fireproof throughout, at a cost of approximately \$1,900,000, the erection being commenced in the fall of 1908, and the departmental offices occupied in the fall of 1910. The length of the building is about 543 feet, and the height of the dome approximately 187 feet. The central portion is 98 feet in width and 267 feet in depth, with a wing on either side, each 222 feet long and 72 feet in depth.

The City Council is composed of a Mayor and ten Aldermen. The Mayor is elected annually by a vote of the entire city, and commencing with the Municipal Election of December, 1914, the Aldermen have also been elected from the city at large. Prior to that time they were elected annually from the five wards of the city, two representatives to each ward. Provision has been made whereby, commencing with that of 1921, the Municipal Elections will be held according to the system of Proportional Representation known as "The Single Transferable Vote."

Regina is undoubtedly the financial centre of the province, and its development in this respect is very remarkable. Eleven of the leading Canadian banks now have branches in this city, the majority of them having erected substantial and elaborate offices of their own.

The Bank Clearing House Association was established in 1909. The clearings for 1910 were \$50,739,159; 1911, \$73,032,088; 1912, \$115,727,648; 1913, \$132,087,457; 1914, \$98,205,541.65; 1915, \$887,122,611; 1916, \$124,349,589; 1917, \$169,800,113; 1918, \$184,624,631; 1919, \$210,898,989; 1920, \$231,070,268; 1921, \$203,659,640.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta.

Regina is justly entitled to be termed one of the best served railway cities in Western Canada. Twelve lines of railway radiate in all directions from the city, and the C. P. R. and C. N. R. vie with each other in their endeavor to give Regina an excellent train service.

The Great Northern Railway has direct communication between Regina, Minneapolis, St. Paul and other southern cities over the Canadian National Railroad Boundary Line. In addition to the lines in operation, bonds have been guaranteed by the Provincial Government for ten additional branch lines, which when completed, will make a total of twenty-two railway lines radiating in all directions from Regina.

Owing to its geographical situation in the heart of the grain growing district of Western Canada, and with unequalled railway facilities, Regina is one of the largest distributing points for agricultural implements in the world, and practically every Canadian and American implement manufacturing firm of any importance has its agency in the city. The advantages for the distribution of other lines of goods are on a par with those for agricultural implements, and Regina has a large number of manufacturing concerns.

The city is a firm believer in municipal ownership, and owns its street railway, of which it has some 30 miles constructed within the city limits; light and water plant, supplying cheap light and power; and water system, the water being obtained from springs distant some eight miles. With regard to the last two mentioned utilities, the city has planned the expansion of the present system, so that, when complete, they will provide for a population many times the number of the present one, supply sufficient power and provide adequate fire protection throughout the City.

In connection with cheap power, the city has entered into an agreement with Messrs. Coste & McAuley for the supply of natural gas. The city intends to arrange for the distribution of the gas within its limits, retaining full control of the utility, as it has done with its other utilities.

During 1914 the city extended its municipal ownership still further by the establishment of a Municipal Stock Yards on a scale sufficiently large to accommodate all the livestock raised in the province. The yards were opened in September, 1914, and considerable business has been carried on. The ultimate aim of the city, however, is the provision of an up-to-date stock yard to furnish a good market for all stock raised in the country tributary to the city.

Regina is also the headquarters for the Saskatchewan Co-operative Elevator Company and the Grain Growers' Grain Company, both of which have been of remarkable benefit to the farmers, and agriculture generally.

As a residential centre, Regina offers every inducement to the homeseeker. In this respect it has been referred to as "The City of Beautiful Homes."

From the educational and social points of view the city also offers every advantage. With a population of about 40,000, the city has the Regina College, St. Chad's College and the Provincial Government Normal School all carried out in Gothic treatment, and a Collegiate Institute of classic design. A magnificent college is projected by the Presbyterians, their scheme including the purchase of some three or four hundred acres of ground on which to erect college buildings, at a cost of about \$1,000,000, making provision for the education of both sexes, also a hospital and other buildings in connection with same. The Roman Catholics have also expressed their intention of erecting a substantial college this year. From these points it will be seen that the city, although not fortunate enough to possess a Provincial University, may claim to be the educational centre of the province. In addition to the above, there are some 17 public and separate schools, 28 churches, Y. M. C. A. and Y. W. C. A.; two public hospitals and several private nursing homes; a public library with three branches; several business colleges and numerous societies for the advancement of art, music, literature and science, one daily morning paper, one daily evening paper, two weekly papers and several monthly trade publications.

Regina is one of the best paved cities in Canada for its size, having some 31 miles of paved streets, 75 miles of graded streets, 43 miles of granolithic and 61 miles of plank sidewalks. The city also has some 73 miles of sewer with 6,678 connections; 78 miles of water mains with 548 hydrants and 5,050 house connections; 5 fire stations with some 53 firemen and a full equipment of the most modern fire fighting apparatus; some 257 acres of parks, a trunk sewer and sewage disposal works; and an incinerator plant for the disposal of garbage.

As to amusements, the city has two theatres and plans for the construction of another are under way. There are also some four moving picture theatres. The Lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many fraternal societies and other organizations exist, devoted to amateur theatricals, cards, debates, etc. The city is within easy distance of Last Mountain and Katapwa Lakes, two of the beauty spots of the province and delightful holiday resorts, offering unequalled facilities for bathing, fishing and boating.

Regina's Municipal Buildings, would do credit to a far larger city. The funds for their erection have been to a great extent provided by the sale of townsite lands, yet the city still possesses an asset in its saleable property which is valued at some \$1,791,585.

Regina is also the headquarters of Military District No. 12, which comprises the Province of Saskatchewan. This adds much to the business and social life of the city.

COMMITTEES OF COUNCIL

At the beginning of 1916 the Council abolished the various Standing Committees and substituted therefor a Special Committee consisting of all the members of Council with the Deputy Mayor as Chairman. This Special Committee meets every Thursday evening at 7.30 o'clock and undertakes the duties and performs the functions of all the former Standing Committees.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

Chief Constable—M. J. Burton

STREET RAILWAY

The construction of the street railway as a municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29, 1911. At this time the system consisted of about six miles of track and six cars. At the present time there are about 30 miles of track within the city limits, $14\frac{3}{4}$ miles of this being in pavement. The rolling stock is as follows:

- 34 passenger cars
- 2 sweepers
- 1 snow plow
- 1 motor haulage car
- 30 freight cars

Total expenditure up to December 31, 1914, was \$1,723,830 of which \$266,065 was for cars and car equipment.

Operation statistics for the year ending December 31, 1922, are as follows:

Revenue passengers carried	\$5,522,232
Transfer passengers carried	743,502

Total passengers carried	6,265,734
--------------------------------	-----------

Passenger car miles	1,036,011
Other car miles	11,917

Total car miles	1,407,928
-----------------------	-----------

Passenger Revenue	\$345,543.86
Other Revenue	17,383.98

Total Revenue	\$362,927.84
---------------------	--------------

Operation Expense	\$277,907.62
-------------------------	--------------

Operation Surplus	\$ 84,820.22
-------------------------	--------------

The following fares were effective during the year:—

Cash—10c.

Tickets—2 for 15c.

Tickets—4 for 25c.

Tickets—17 for \$1.00 (book).

Tickets—8 for 25c. (Children over 5 and under 14 years.)

All cars in regular service are operated by one man. This method of operation has proved practicable and made a big saving in operating expense.

The construction of a block of track on Edward St. completed a loop between Dewdney St. and the Stadium. This has greatly facilitated the handling of large crowds to and from the Professional Hockey matches and other events held in the Stadium.

ELECTRIC LIGHT AND POWER PLANT

The generating plant at old power house consist of four boilers, aggregating 1,000 H.P.

One 450 K.W. low pressure turbine generating unit.

Two 400 K. W. direct current railway units, vertical engine type.

One 1,200 K.W. motor converter, converting some 2,200 volt three-phase to 600 volt direct current.

No. 2 power house has been completed in which the following additional apparatus is installed: Two 1,500 K.W. high pressure turbine generating units, one 3,000 K.W. high pressure generating unit, and one 5,000 K.W. General Electric Curtis high pressure turbine, and six boilers aggregating 3,000 h.p. capacity with Riley mechanical underfeed stokers.

The plant is fitted with all the most modern labor saving devices. 653 series nitrogen, and 50 incandescent (used in subways) lamps are in use.

REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern Refuse Disposal Plants on the continent. All refuse collected from the city is hauled to a Central Transfer Station, where it is loaded into steel dump cars. From the Transfer Station, which was specially constructed for this purpose at a cost of \$20,000, the refuse is transferred over the street railway to the incinerating plant at the Disposal Works, a distance of two and a half miles. The Incinerating Plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the Disposal Works and to light the grounds.

WATER WORKS SYSTEM

The water works system is owned and operated by the city. The supply of water is obtained from springs and artesian wells in the valley of Boggy Creek, about eight miles northeast of the city. A dam constructed across the Creek impounds about 100,000,000 gallons of water, which replenishes the creek in times of drought. More than fifty wells have been sunk through clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflow and yield pure sparkling water. Regina is in a unique position, and it is the only known instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected into the Barton Pump Well (270,000 gallons capacity), and is raised into the Tor Hill reservoir by means of two 2,000,000 gallons per day turbine pumps, one direct connected to a 75 h.p. motor and the other to a 100 h.p. motor on either pump can be driven by oil engines. Tor Hill Reservoir is a circular reinforced concrete construction, has a capacity of 5,000,000 gallons and stands about 125 feet above the city level; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by 15-inch vitrified pipe to the compensating basin, and thence by 10-inch cast iron main to the city pumping station. The artesian well water gravitates from Tor Hill reservoir to the city through 18-inch main.

A rectangular reinforced concrete reservoir is situated near the city pumping station. It is 150 feet long, 153 feet wide and holds 21 feet of water, its capacity is 5,000,000 gallons.

The Compensating Basins have a capacity of 1,065,000 gallons.

There are installed at the city pumping station two 2½ million gallons per day steam driven pumps, which can be operated in parallel or in series and furnish a pressure of 60 and 120 pounds per square inch respectively. There are also two steam driven pumps which can be operated in parallel or in series.

The normal domestic pressure by gravity is 40 pounds per square inch, which can be increased by pumping.

The distributing system consists of two trunk mains 24 inches in diameter, one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches. The total length of the distributing mains is 64 miles and of supply mains 14 miles.

PARKS

The area of land set aside for park purposes is about 257 acres and is valued with improvements at \$3,300,000.

Wascana Park—Containing about 45 acres and situated to the south of the city, has a frontage of about a quarter of a mile along Wascana Lake, which extends for nearly two miles east, affording excellent facilities for boating, of which full advantage is taken. There is a large boat club building and a boat livery in the park. There is also a bathing house, which is open for the use of the public. A bandstand occupies an appropriate position in the park.

This park, adjoining as it does the ground of the Regina College, and having an outlook over the lake to the Parliament Building and grounds, offers excellent facilities for development as an ornamental park.

Park de Young—North side Tenth Avenue between Robinson and Cameron.

Broad Street Park—North side Victoria between Osler and Broad.

Victoria Park—Scarth Street and Twelfth Avenue, which contains over seven acres, situated in the centre of the city, is laid out as an ornamental garden.

Alexandra Park—Is used as a children's playground and is equipped with suitable gymnastic apparatus.

Stanley Park—During the season of 1915 was replanted and laid out in an appropriate form to suit the surroundings with new walks, flower beds, trees and shrubs. This park forms an appropriate frontage for the Union Depot of the Canadian Pacific and Canadian National Railway Companies.

COLLEGE OF AGRICULTURE

The College of Agriculture is a part of the University and stands in the same relation to the University as does the College of Arts and Science. It has a number of buildings planned and equipped for carrying on its particular work and a staff of its own for the purpose of giving instruction especially in the technical subjects and elementary work in English, Mathematics and Sciences. Its laboratories and equipment are under certain limitations and restrictions, available to students in the other colleges of the University for the purpose of scientific research.

The aim of the College is to give the students under its care a good, practical training in the different technical subjects that bear upon the various phases of agriculture, such as animal husbandry, field husbandry, farm mechanics, farm engineering, dairying, horticulture, tree planting and others; to give them a good, liberal education in various other branches such as will enable them to adapt themselves readily, without great loss of time and energy, to new and varied conditions, and to fit them for their duties as good citizens.

EMMANUEL COLLEGE

In Affiliation with the University of Saskatchewan

The College is governed by two bodies, a Statutory Council, composed of ex-officio and elected members. Its appointment is regulated by canon and the elected members retire by rotation. Also by a Board, appointed by the Colonial and Continental Church Society of London, England. The Council has the right to grant standings in Theology, and the Board controls all matters affecting the welfare of the College, and the Proceedings of the College are reported annually to the synod of the Diocese of Saskatchewan. The Educational Committee is made up of the Faculty, together with the Bishop, and three clerical and three lay members of the Board of Governors.

The College provides (1) an Associate course in Theology, (2) a pass course leading to the Testamur, (3) a course leading to the Licentiate in Theology, and (4) a course leading to the Degree of Bachelor of Divinity.

The Objects of the Association

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collecting or canvassing for any fraudulent or "fake" Directory.
